SENATOR DECAMP: That is correct. It is 44-156. I suspect your next question is you are actually repealing more than just the tail. Is that what you are going to say?

SENATOR BEUTLER: That would be a concern, yes.

SENATOR DECAMP: Yes. We believe that is taken care of in other statutes, the same rights and remedies are there, and if we need to make additional amendments that would be one of the things the Revenue Department is checking whether we need to modify this at all. At this time we would like to introduce the bill with the complete cut off so there is no ifs, ands or buts. And as I say, they assure us at this point that there is no problem in these other things, that there are other remedies available in the laws. However, if it is necessary we would modify this.

SENATOR BEUTLER: Has this been discussed with the Department of Insurance?

SENATOR DECAMP: It was discussed as recently as 30 minutes ago with them, yes.

SENATOR BEUTLER: Okay, and they are in agreement...

SENATOR DECAMP: Yes, they are.

SENATOR BEUTLER: ...and promoting the introduction of this bill also?

SENATOR DECAMP: Yes, sir.

SENATOR BEUTLER: Okay, thank you.

SPEAKER NICHOL: Senator Higgins, please.

SENATOR HIGGINS: Thank you, Mr. President. Senator DeCamp, you got to get up again. You need the exercise anyway.

SENATOR DECAMP: Ah, there are those who believe that, yes.

SENATOR HIGGINS: You and I missed our jogging together this morning. Would you mind explaining for this poor, dumb person again, this is not a bill that you've previously written that we are actually reconsidering, is it?
